# **Monthly Indicators**

#### **June 2025**

U.S. existing-home sales edged up 0.8% month-over-month to a seasonally adjusted annual rate of 4.03 million units, exceeding economists' expectations, although sales were down 0.7% year-over-year, according to the National Association of REALTORS® (NAR). On a monthly basis, sales increased in the Midwest, Northeast, and South but decreased in the West.

New Listings were up 4.4 percent to 2,247. Pending Sales increased 8.0 percent to 1,737. Inventory grew 18.4 percent to 5,031 units.

Prices moved higher as Median Sales Price was up 1.4 percent to \$430,293. Days on Market increased 19.4 percent to 43 days. Months Supply of Inventory was up 17.2 percent to 3.4 months, indicating that supply increased relative to demand.

Heading into June, there were 1.54 million units for sale across the country, a 6.2% increase from the previous month and a 20.3% improvement over the same period last year, representing a 4.6-month supply at the current sales pace, according to NAR. Despite the additional supply, home prices have continued to rise nationwide, albeit at a slower pace than during the pandemic, climbing 1.3% year-over-year to \$422,800 as of last measure.
